

## APN Series

APN-30

APN-60

APN-100

A Mech-Sensor combines with a sensor that automatically detects labels of different strokes to eliminate the need for manual alignment when you load labels.

- For pre-printed general roll labels. No special (punched or slit) labels or separators required.
- Supports use of label size from 18x20mm up to 60x100mm.

MODEL	LABEL GAP(mm)	LABEL SIZE(mm) STROKE	WIDTH	MAX. OUTSIDE DIAMETER(mm)
APN-30		20-30	20-30	
APN-60	2-3	18-60	25-60	100
APN-100		50-100		

**The Mech-Sensor** catches the label and automatically detects the stroke for smooth feeding.

## APF Series

APF-30

APF-60

APF-100

A new slidable Mech-Sensor provides support for round, oval, and other non-rectangular shape labels.

- For eye-catching labels of various shapes that appeal to customers.
- Supports use of the label size from 20x20mm up to 60x100mm. For pre-printed general roll labels. No special (punched or slit) labels or separators required.

**Slide The Mech-Sensor** to the left or right until it is in the center of the label.

MODEL	LABEL GAP(mm)	LABEL SIZE(mm) STROKE	WIDTH	MAX. OUTSIDE DIAMETER(mm)
APF-30		20-30	20-30	
APF-60	2-3	20-60	20-60	100
APF-100		20-100		

## APN10

APN10-30

The smaller the label it is when you dispense, the more troublesome it becomes.... It assures high performance for small labels.

The new type of a premium tool, APN10-30 assures high performance for samll labels.

### Notice

- Labels must be more than 50µm thick for all models.
- Some types of film, synthetic paper, and other special labels may not be supported.
- Please ask our distributor for details before using special labels.
- We reserve the right to change specifications without notice for improvement.
